

SHUBHAM PATEL

Full-Stack Developer & iOS Developer

Noida, U.P., India | +91 9220662245 | shubh200313@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Final-year B.Tech (Information Technology) student with hands-on experience in building scalable full-stack web applications, AI-driven architectures, and native iOS applications. Proficient across the stack — React/Next.js frontends, REST APIs, Swift/SwiftUI, and Python- based data pipelines. Strong foundation in Data Structures & Algorithms, async workflows, and database management. Seeking an Entry- Level Software Engineer or Internship role to contribute to production-grade software development.

TECHNICAL SKILLS

Languages:	JavaScript, TypeScript, Swift, Python, C++, SQL, HTML, CSS
Frontend & Mobile:	React.js, Next.js, SwiftUI, Tailwind CSS, Recoil, Combine
Backend :	Node.js, Express.js, REST APIs, WebSockets, JWT Authentication, Zod
Databases & Tools:	MongoDB, PostgreSQL, Prisma, Supabase, MySQL, Git, GitHub, Postman, Vercel, Render, AWS
Core CS Concepts:	Structures & Algorithms (DSA), OOP, Operating Systems, DBMS, Computer Networks

PROJECTS

AI Voice Recruiter — AI-Powered Recruitment & Interview Platform

[GitHub](#)

Tech Stack: Next.js, React.js, Supabase, Tailwind CSS, REST APIs, LLM/NLP APIs

- Architected an end-to-end AI recruitment platform with secure candidate authentication and role-based automated workflows using **Supabase**.
- Integrated **LLM/NLP APIs** to generate real-time, context-aware interview questions and auto-evaluate candidate response summaries, reducing manual screening effort.
- Built a fully responsive, accessible UI with React hooks and Tailwind CSS for seamless mobile and desktop experience.

NEXTUS — AI-Powered Learning & Technical Interview Platform

[GitHub](#)

Tech Stack: Node.js, Express.js, PostgreSQL, Prisma ORM, Google Gemini 2.5 Flash API, JWT, Helmet, CORS

- Built a high-performance **Express & PostgreSQL** backend using **Prisma ORM** to power an **AI tutoring platform**. Integrated Google Gemini 2.5 Flash API to deliver automated code debugging, polyglot conversion, and a dynamic **AI Mock Interviewer** with tier-based difficulty scaling. Developed custom security, rate-limiting, and **JWT authentication** middleware to enforce daily plan quotas.

SwiftBite — Real-Time Food Delivery & Tracking iOS App

[Live Video Link](#)

Tech Stack: SwiftUI, MapKit, CoreLocation, LiveActivity, SwiftData, MVVM

- Built a **menu bar** and **desktop macOS** app to collect images, videos and Pinterest/Instagram links via paste and drag-and-drop, with a masonry grid, genre/tag filters and search, using local-first storage (JSON + filesystem).
- Implemented **Open Graph scraping** for pin images, **AVFoundation video thumbnails**, and an animation production tracker with phases, **linked references** and **deadline notifications**.

InspoBox — macOS Reference & Production Manager for Animators

[LiveDemo](#)

Tech Stack: SwiftUI, AppKit, AVFoundation, UserNotifications, Combine)

- Built an interactive **macOS-themed** portfolio with **draggable windows**, dock navigation, and a **Finder-style project explorer** using **Zustand** for state management.
- Designed a **dynamic Photos gallery** with infinite scroll, **location-based folders**, and automated slideshow transitions replicating native **macOS UX**.

OPEN-SOURCE CONTRIBUTIONS

- markdown-reader:** Resolved critical frontend layout responsiveness bugs, improving hero section spacing, dynamic button positioning, and grid adaptation across multiple viewport sizes.
- preCICE (Engineering Simulation Ecosystem):** Contributed to an open-source scientific computing project via the upstream GitHub pull-request workflow, collaborating with an international developer community to refine and improve the codebase.

EDUCATION

G. L. Bajaj Institute of Technology and Management

Greater Noida, U.P. | 2022 – 2026

Bachelor of Technology in Information Technology

S. R. H. R. Senior Secondary School

Bilaspur, G.B. Nagar | 2019 – 2020

Intermediate (Class XII)

ACHIEVEMENTS

- FinxThon '24 Hackathon:** Secured **6th Place overall** competing against 200+ developer teams, building innovative tech solutions under strict timeline constraints.
- 500+ DSA question across Different Platform
